PRODUCT INFORMATION

HIGH PRESSURE LAMINATE (HPL)

Privada can be specified in HPL by Wilsonart and Formica (examples below)

Upon request, Privada can fabricate with finishes provided by other HPL manufacturers

* For most readily available laminates visit [HPL Privada Color Guide](#)

WOOD VENEERS

Privada can be specified in Wood Veneers by Veneer Art (examples below)

*Divider panels over 48" will have seams due to veneer material width

DOOR HARDWARE & PEDESTAL FINISH

Note: Hinge available only in stainless steel

FRAME & PRIVACY EDGE FINISH

Standard anodized aluminum

Contact info@privadapartitions.com for technical questions

PRIVATE

Interlocking door and fascia panels with anodized aluminum edge offer durable design and eliminate line-of-sight. Occupancy indicators inform patrons when compartments are in use.

FLOATING

Recessed foot pedestals and flush head-rail support compartments, appearing suspended without compromising stability.

TAILORED

Customizable finish, hardware, and height options to fit any design. All fasteners on panel surfaces and connection points are concealed.

SERENE

Self-closing doors provide a smooth, gradual closing speed of at least 4 seconds on standard doors and up to 10 seconds on ADA compartments. Doors include an absorbent bumper along the edge to minimize noise.

BUILT-TO-LAST

Mechanical parts have undergone 100,000 cycle-tests without failure. The product is backed by a 10-year warranty.

SUSTAINABLE

Contributes LEED points for Recycled Content, Rapidly Renewable and Low Emitting Materials (available upon request).

AMERICAN DESIGNED, AMERICAN MADE

Designed in California and manufactured in the American heartland, Privada has partnered with innovators in industrial design and manufacturing from around the country.
